DETAILED ACTION

Response to Amendment

1. The present Office action is made in response to the amendment filed on 11/20/2006. It is noted that in the amendment, applicant has made changes to the specification and the claims. Regarding to the claims, applicant has canceled claim 17. There is not any claim being added. The remaining claims 1-16 are examined in this Office action.

Specification

2. The lengthy specification which was amended by the amendment of 11/20/06 has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

3. Claims 1-16 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The stage assembly as recited in each of independent claims 1 and 11, and the method for focusing of an image with an optical microscope by such a stage assembly as recited in the independent claim 7 are patentable with respect to the prior art, in particular, the U.S. Patent Nos. 6,229,607; 5,812,310 and 6,781,753 by the limitations related to the structure of the stage assembly. It is noted that the use of a stage assembly having three frames each has an opening and each is movable is disclosed in the art as can be seen in each of the mentioned Patents; however, the prior art does not
